1.0 INTRODUCTION

The Town of Hamburg (Town) is petitioning for the formation of a Town of Hamburg Refuse and Recycling District, excluding the Villages of Blasdell and Hamburg - see **Exhibit 1: Project Location Map** – to facilitate providing collection, hauling, and processing of household solid waste, bulk waste, and recyclables (collectively “Refuse and Recycling Services”) for eligible residential parcels. Eligible residential parcels generally include improved properties for residential use with up to four dwelling units, as more specifically set forth in Table 1 (“Eligible Parcels”). Eligible Parcels generally do not include vacant land, buildings with five or more units, and non-residential properties, as more specifically set forth in Table 2 (“Ineligible Parcels”).

On May 5, 2025, the Town awarded a contract for Refuse and Recycling Services to Modern Corporation, the lowest responsible bidder, with service coverage extending to all Eligible Parcels. A copy of the Town’s bid documents is provided as **Appendix A**.

The Town does not currently provide Refuse and Recycling Services. Such services within the Town of Hamburg are presently provided by direct contract between residents and various refuse and recycling vendors. The Town is considering forming a Town of Hamburg Refuse and Recycling District to improve the consistency, efficiency, and affordability of Refuse and Recycling Services for Eligible Parcels within the Town.

This Map, Plan and Report (MPR) has been prepared in accordance with the requirements of New York State Town Law Article 12.

2.0 CURRENT REFUSE AND RECYCLING COLLECTION OPERATIONS

The Town currently does not provide Refuse and Recycling collection Services. Instead, residents are required to individually contract with various private vendors for refuse and recycling pickup. These collection operations result in inconsistent service levels and differing pricing across households. Due to the lack of a unified program, many residents face elevated costs for Refuse and Recycling services, often paying significantly more than they would absent a coordinated municipal contract that allows for reduced costs due to economies of scale. The absence of Town oversight also means that service quality, scheduling, and vendor accountability vary widely, placing the burden of both cost and management entirely on individual households.

Based on the New York State – Real Property System for the Town of Hamburg, Erie County, 2026 data, the Eligible Parcels to be included in the Town of Hamburg Refuse and Recycling District, are summarized in **Table 1** and shown on **Exhibit 2**. A full list of all Eligible Parcels proposed to be included in the Town of Hamburg Refuse and Recycling District is provided in as **Appendix B**.

3.0 PURPOSE

To improve the consistency and efficiency of, and reduce costs associated with, receiving Refuse and Recycling Services, the Town of Hamburg is proposing the formation of a Town of Hamburg Refuse and Recycling District. Formation of this District will benefit residents of Eligible Parcels who currently contract privately for these services.

4.0 PROPOSED TOWN OF HAMBURG REFUSE AND RECYCLING DISTRICT

On May 5, 2025, the Town awarded a contract for the Collection, Hauling, and Processing of Municipal Solid Waste, Bulk Waste, and Recyclables to Modern Corporation, the lowest responsible bidder. Modern will provide Refuse and Recycling Services for an initial term of three (3) years with renewal for up to two (2) additional three (3)-year periods upon mutual agreement of the Town and Modern, under the same terms and conditions.

The proposed Refuse and Recycling Services would include:

- A. Weekly collection of solid waste placed in wheeled refuse carts.
- B. One bi-monthly bulk item collection (maximum of four (4) bulk items).
- C. Every other week collection and processing of recyclables placed in wheeled carts and flattened corrugated cardboard.
- D. Providing one 40-yard dumpster to the Town Highway Department (Lakeview Road), to be serviced on an "as needed" basis.

Based on Feedback from the Town, the District is proposed to include the properties identified in **Exhibit 2** and as listed in **Table 1**, above.

5.0 CONCLUSIONS AND RECOMMENDATIONS

To provide Refuse and Recycling services, the Town has started the process of forming a Refuse District. The District charges will appear as a line item on the real property tax bills of owners of Eligible Parcels in the District. The determination of user rates is based upon Modern Corporation's bid submission. Although the proposed Refuse and Recycling Services was bid on a per parcel basis for cost purposes, this MPR equates one parcel to a residential unit. Therefore, the parcel will be charged per the number of residential units on the property. Modern Corporation's projected annual rates per residential unit for a 3-year contract are presented in **Table 3**.

TABLE 3 – Annual Rates Per Residential Unit (3-Year Contract)

Service	Description	Annual Rate Per Residential Unit
Residential Refuse Collection	Residential Unit rate for Weekly Refuse Collection. One bi-monthly bulk item collection, maximum 4 items per parcel.	\$104.64
Residential Recycling Collection and Processing	Residential Unit rate for every other week recycling collection.	\$70.92
Disposal Rate of All Collected Solid Waste		\$64.35
	Total:	\$239.91

The resulting charge per residential unit for weekly collection of solid waste placed in wheeled refuse carts, every-other-week collection and processing of recyclables placed in wheeled carts, and one bi-monthly bulk item collection for a maximum of four (4) bulk items is \$239.91 per year for the first year of a 3-year contract, with the charge adjusted each subsequent year to account for inflation, but where no increase will be greater than 3.5%. In addition, in the first year, the per residential unit charge will include a one-time charge to account for the costs of legal and engineering professional services incurred by the Town in connection with the formation of the District, where such one-time professional services charge is not anticipated to be greater than \$5.00 per residential unit.

The purpose of forming this District is to provide Refuse and Recycling Services at a substantial savings compared to the rates residents would pay if they individually contracted with a vendor. Residents receiving Refuse and Recycling Services through the District will not be required to hire and pay a contractor directly for these services. However, any resident of an Eligible Parcel may decline the Refuse and Recycling Services to be provided by Modern Corporation under the Town's contract by notifying the Town in writing. Owners of Eligible Parcels that decline the Refuse and Recycling Services, however, will still have the per unit residential charge included on their tax bills, and will be responsible for paying such charge.

3.15 Reports and Records

The contractor shall provide monthly records documenting the weight of each truck load delivered. Monthly records, at a minimum, must include the time, date, truck number, and net weight of each truck load delivered, daily tonnage report, separate monthly summaries of total refuse and total recyclables delivered (tons) and number of residential recycling stops. The report must be delivered

to the Town no later than the 7th day of the month following the month in which the tonnage was delivered. Reports shall be electronically submitted to the Town Clerk or other designee.

The Contractor shall provide quarterly reports within seven (7) calendar days after the end of each calendar quarter (April, July, October, January) documenting, but not limited to, scheduled operating days and changes in operations; maintenance summary; accident reports; and other records deemed appropriate by the Town. 5.0 SPECIFIC PROPOSAL CONDITIONS

The Contractor shall be responsible for the uninterrupted curbside collection of refuse and recyclables from all eligible participants. This contract will require service to all residential units (single, double, triple and quad unit dwellings). The maximum quantity of refuse carts per parcel is based upon the number of dwelling units and shall not exceed four (4). The Contractor, unless authorized by the Town, shall not offer for sale individually branded carts to residents during the duration of this contract.

5.1 Issued Containers/Refuse Carts

The carts issued by the Contractor will be compatible with ANSI Z245.30 and ANSI Z245.60 for Type B and G containers. The carts will be capable of fully automated and/or semi-automated collection for the sole purpose of refuse/recycling storage and collection to participating parcels, and may be an injection or rotational molded, high/medium density polyethylene body and lid, durable plastic, two-wheel assemblies, a solid steel axle, and a lift bar. Replacement carts (due to loss, damage or otherwise) will be issued as necessary, at resident expense.

The Bidder, upon execution of a contract, shall specify instructions to Town participants for placement of refuse/recycling carts at the curbside consistent with collection methodologies. It will be the responsibility of the occupant of the residence/business to place the carts at the curbside for collection and to remove said carts from the curbside after collection is completed.

All emptied carts shall be placed between the sidewalk and the curb, and not on the sidewalk, road, or driveway, and in a manner that does not impede pedestrian or vehicular traffic. Contractors shall handle carts in a manner that prevents damage to the carts and to reduce noise. Throwing or tossing of carts shall not be allowed. The Contractor and Town will require residents to place only refuse/recycling in the provided carts and that the carts are to be used for only those materials designated.

5.2 Eligible Program Participants

An electronic file consisting of the parcel locations and expected quantity of refuse carts is included as part of Appendix A.

5.3 Cost of Living Adjustment

The contracts unit prices will be adjusted upwards or downwards annually, based upon the net percentage of change over the then most recent twelve (12) month period for which the index figures are available for the Consumer Price Index (CPI) for the US WST (Water, Sewer, Trash Collection) as published by the U.S. Department of Labor, Bureau of Labor Statistics, provided such adjustment will be capped and will not exceed a 3.5% adjustment in any year.

5.4 Occupancy Adjustments

5.5 Education/Promotion and Outreach

The contractor shall work with the Town (or representatives thereof) to provide service-orientated information to residents. The contractor shall provide, via direct mail, an 8-1/2" x 11", two-color flyer containing high resolution images informing residents of the proper handling, use and care of refuse/recycling carts, as well as specifics of the refuse and recyclables collection program that includes a collection schedule, and a listing of acceptable materials no less than 15 calendar days prior to contract commencement. The contents of the insert must be approved by the Town.

The contractor shall provide another such insert every twelve months thereafter, via direct mail, and electronic versions shall be sent to the Town to post on their website and include in general community correspondence. The contractor shall also provide educational resources, in the form of downloadable electronic materials, related to recycling the proper acceptable materials, proper placement and other relative information.

5.6 Bid Option 1

The Town requests Contractors provide the following services to eligible parcels for an initial term of three (3) years with renewal for up to two additional three-year periods upon mutual agreement, under the same terms and conditions.

- a. Weekly collection of solid waste placed in wheeled refuse carts.
- b. One bi-monthly bulk item collection, maximum of four (4) bulk items placed at the curb.
- c. Every-other-week collection and processing of recyclables placed in wheeled carts. The Contractor shall also collect corrugated cardboard that is flattened and placed next to the recycling cart. Cardboard must be broken down, stacked and securely tied allowing the Contractor to place back into the recycling cart once initial contents are tipped, with minimal effort. Cardboard and other acceptable materials for recycling that are placed out on "off" recycling weeks or is set out in a manner that prohibits the driver from reloading into the recycling cart with minimal effort will be tagged and left behind.
 - i. Recyclables must be collected on the day specified for Refuse Collection.
 - ii. The Contractor shall receive and process all acceptable recyclables as delivered and assume full responsibility for the efficient and environmentally sound processing and marketing of the recyclables. The recyclable material will include, but not be limited to the list contained in Appendix C. As additional materials become feasible for curbside recycling, the Town will work with the Contractor to add these items to the program. Materials which no longer have viable markets will be removed from the menu as permitted by law. The bidder is required to list any exceptions or additions to the list of acceptable recyclables as part of the proposal.
 - iii. It shall be the contractor's responsibility to market the recyclables in a timely manner. All materials collected from Town units and deemed recyclable must be recycled. Under no circumstance shall source separated

recycling be collected in a dedicated refuse truck (split-body with clear markings is acceptable). A violation of this principle will subject the Contractor to possible default of the contract. Disposal of non-recyclable

items collected (recycling contaminants) which may be included in the recyclables, shall be the responsibility of the Contractor.

- iv. The Contractor should be prepared to warn residents of the presence of unacceptable items. The Town requests offenders receive a notice on their cart indicating the reason the cart was rejected. The Contractor shall notify the Town in a daily submittal list identified as "Notice of Uncollected Materials." This daily notice shall consist of a listing of address, type of materials uncollected and the basis for collection refusal. If the Contractor consistently identifies a property placing unacceptable items for recycling, they must contact the Town to assist.
 - v. The Town requests first time offenders receive a notice on their cart and collection of acceptable items only. If the Contractor consistently identifies a property placing unacceptable items for recycling, they must contact the Town to assist.
- d. Disposal of solid waste per ton.
 - e. The Contractor shall provide, at no additional cost, one 40-yard dumpster to the Town Highway Department (Lakeview Road) for the duration of the contract and any service extension periods. The dumpster shall be serviced by the contractor on an "as needed" basis.

5.7 Bid Option 2: The Town requests Contractors provide the services listed in Section 5.6 Bid Option 1, to eligible parcels, for an initial term of five (5) years with renewal for one additional five-year period upon mutual agreement, under the same terms and conditions

5.8 Bid Option 3: The Town requests Contractors provide the services listed in Section 5.6 Bid Option 1, to eligible parcels, for an initial term of one (1) year, with renewal for up to five additional one-year periods upon mutual agreement, under the same terms and conditions.

5.9 Bid Alternate 1: Additional Cart Collection: The Town intends to offer optional collection of an extra cart at any parcel that has less than four (one, two or three) dwelling units, and in such case the parcel will exceed the current cart assignment of one cart per dwelling unit. In a circumstance where a resident requires an additional cart, the Contractor will provide an additional cart and the Town will compensate the Contractor based on the fee established in this Option, which shall not exceed 30% of the total rate to provide weekly collection of refuse. The maximum allowable quantity of carts issued to a parcel is four (4). The Town may elect to add administration fees to defray the administrative expense for provision of this service, such administrative fees to be payable by the owner of the parcel receiving the additional cart, and the amount of such fees to be established at the sole discretion of the Town. The Town will individually accept or decline this option at the time of contract award. The Town will notify the Contractor of all service upgrades.

5.10 Bid Alternate 2: Collection of Additionally Tagged/Stickered Items: The Town, at its discretion, may offer residents collection of additionally Tagged/Stickered Items. Tagged/Stickered items must be contained in plastic bags which are waterproof, strong and securely tied, and do not exceed more than 40-lbs in weight (each). The Town will administer this program and charge residents a fee of \$2.00/sticker/tag, of which all revenue from the sale of tags/stickers revenue will be returned to the contractor.

The Contractor is expected to provide the tags available for purchase. Tags or Stickers must be easily fixed to the bags, waterproof, high visibility, and contain simple instructions for use. The Contractor and Town shall mutually agree to the design of the tag prior to purchase.

5.11 Bid Alternate 3: Recycling Collection Alternate: The Town recognizes that recycling commodity values fluctuate during the term of a municipal contract and that it may be in the best interest of the Towns to enter into an agreement that allows for sharing in responsibility or reward of fluctuating recycling markets. The Town has prepared a formula for Contractors to determine the net value of the recyclables collected. Contractors shall provide a revised rate outlined in 5.6 Bid Option 1(c) as Bid Alternate 3 that is based on the following:

- a. Town will pay a Year 1, per ton rate of \$95 to process the sum of recyclables collected from the Town each month. This rate will be subject to the same adjustments outline in Section 5.4.
- b. The monthly recycling stream composition is determined by multiplying the total monthly tonnage collected by the percent composition represented in the Recycling Alternate Model below.
- c. The monthly commodity value will be based upon the published secondary markets pricing, average monthly commodity value, "Regional Average Rate" published by Recycling Markets (www.recyclingmarkets.net) for the Ontario / Western NY region for containers and glass and PPI Pulp & Paper Northeast/Buffalo Market for Mixed Paper (54) and OCC (11).
- d. The Town agrees to a set value of -\$10/ton for all glass collected. This value is not subject to rate increases outline in section 5.4.
- e. The sum of the monthly commodity value will be determined by the following formula: $\text{= (Total Monthly Recycling * Commodity Composition) * Average Monthly Commodity Value published for Ontario / Western NY region for the billing month.}$
- f. The aggregate sum of all commodities, less the processing fee, will equal the total credit issued to the municipality or paid to the Contractor in addition to the per parcel rate. The input model, with examples, is below.

BULK WASTE and RECYCLABLES

Certification of Compliance with the Iran Divestment Act

As a result of the Iran Divestment Act of 2012 (the "Act"), Chapter 1 of the 2012 Laws of New York, a new provision has been added to the State Finance Law (SFL) Section 165-A and the New York General Municipal Law Section 103-G, both effective April 12, 2012. Under the Act, the Commissioner of the Office of General Services (OGS) will be developing a list of "persons" who are engaged in "investment activities in Iran" (both are defined terms in the law) (the "Prohibited Entities List"). Pursuant to SFL §165-A(3)(b), the initial list is expected to be issued no later than 120 days after the Act's effective date, at which time it will be posted on the OGS website.

By submitting a bid in response to solicitation or by assuming the responsibility of a contract awarded hereunder, each Bidder/Contractor, any person signing on behalf of any Bidder/Contractor, and any Assignee or Subcontractor and, in the case of a joint bid, each party thereto certifies, under penalties of perjury, that once the prohibited entities list is posted on the OGS website, that to the best of its knowledge and belief, that each Bidder/Contractor and any Subcontractor or Assignee is not identified on the Prohibited Entities List created pursuant to SFL §165-A(3)(b).

Additionally, a Bidder/Contractor is advised that once the Prohibited Entities List is posted on the OGS website, any Bidder/Contractor seeking to renew or extend a contract or assume the responsibility of a contract awarded in response to this solicitation must certify at the time the contract is renewed, extended or assigned that it is not included on the Prohibited Entities List.

During the term of the contract, should the Town receive information that a Bidder/Contractor is in violation of the above-referenced certification, the Town will offer the person or entity an opportunity to respond. If the person or entity fails to demonstrate that he/she/it has ceased engagement in the investment which is in violation of the Act within (ninety) 90 days after the determination of such violation, then the Town shall take such action as may be appropriate including, but not limited to, imposing sanctions, seeking compliance, recovering damages, or declaring the Bidder/Contractor in default

The Town reserves the right to reject any bid or request for assignment for a Bidder/Contractor that appears on the Prohibited Entities List prior to the award of a contract and to pursue a responsibility review with respect to any Bidder/Contractor that is awarded a contract and subsequently appears on the Prohibited Entities List.

Derek Veenhof, being duly sworn, deposes and says that he/~~she~~ is the CEO of Modern Disposal Services, Inc., the corporation, and that neither the Bidder nor Contractor nor any proposed Subcontractor is identified on the Prohibited Entities List.

Derek Veenhof
